

Ultra-Coherent Bidirectional Fibonacci Sequence “Quantum Vagina” Neurons

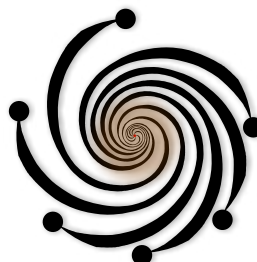

- ▷ Energized by Quantum-Entangled Electron Pairs/Pluralities
- ▷ Natural “Synthetic-Organic” Neurons with “Self-Scaling Architecture” helps preserve at least “some” Quantum Coherence while energized
- ▷ Fabricated on environmentally friendly, natural substrate, like mica and/or Fish Paper
- ▷ May be ordered with or without instrumentation amplifiers installed
- ▷ Organic “mix” can be customized by the end customer/experimentor. For example, the customer can, with an eye-dropper in his kitchen, add his/her own neurotransmitters like CBD/THC, DMT, Dopamine, Psilocin, Muscimol, Glutamate, Epinephrine, or Acetylcholine, etc, etc, or his/her own carbon “entourage” or “mix” of SWCNTs, MWCNTs, fullerenes, nanotoroids, graphene, DNA, RNA, whatever, all suspended in Isopropyl alcohol or (toluene for high quality suspension).
